Policy

The administration will establish routes and designate stops after considering both the safety of children and efficiency of operation. Any Green Mountain student may access the bus at any point on the established route. The following factors will be considered when determining routes and stops:

1. The presence or absence of sidewalks or paths off the highway.
2. Width, condition and class of highways, including curves, hills, intersections, turnarounds, and seasonal road conditions.
3. Density and speed of traffic.
4. Proximity of dwellings, factories, or industrial areas.
5. Physical nature of any area such as presence of woods, ravines, or gravel pits.
6. The number of children required to congregate at any designated stop, and supervision available at any designated stop.
7. Health or physical impairment of students being transported.
8. Distance traveled on a single route, and the length of time spent on a bus by any given student going to or returning from school.
9. Age and maturity of students transported.
